Please find below and/or attached an Office communication concerning this application or proceeding.

	Application No.	Applicant(s)					
Office Action Commons	09/928,682	BEAVER, TED L.					
Office Action Summary	Examiner	Art Unit					
	Stephen J. Castellano	3727					
The MAILING DATE of this communication app Period for Reply	ears on the cover sheet with the c	orrespondence address					
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).							
Status							
1) Responsive to communication(s) filed on 30 No	Responsive to communication(s) filed on 30 November 2005.						
3) Since this application is in condition for allowance except for formal matters, prosecution as to the meri							
closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.							
Disposition of Claims							
4)⊠ Claim(s) <u>1-11 and 13-16</u> is/are pending in the application.							
4a) Of the above claim(s) <u>15 and 16</u> is/are withdrawn from consideration.							
5) Claim(s) is/are allowed.							
6)⊠ Claim(s) <u>1-11, 13 and 14</u> is/are rejected.	5)⊠ Claim(s) <u>1-11, 13 and 14</u> is/are rejected.						
7) Claim(s) is/are objected to.	Claim(s) is/are objected to.						
8) Claim(s) are subject to restriction and/or	election requirement.						
Application Papers							
9)☐ The specification is objected to by the Examiner							
10)☐ The drawing(s) filed on is/are: a)☐ accepted or b)☐ objected to by the Examiner.							
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).							
Replacement drawing sheet(s) including the correction	on is required if the drawing(s) is obj	ected to. See 37 CFR 1.121(d).					
11)☐ The oath or declaration is objected to by the Exa	aminer. Note the attached Office	Action or form PTO-152.					
Priority under 35 U.S.C. § 119							
12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).							
a) ☐ All b) ☐ Some * c) ☐ None of:							
<ol> <li>Certified copies of the priority documents</li> </ol>	have been received.						
2. Certified copies of the priority documents have been received in Application No							
<ol><li>Copies of the certified copies of the priori</li></ol>	ty documents have been receive	d in this National Stage					
application from the International Bureau (PCT Rule 17.2(a)).							
* See the attached detailed Office action for a list of the certified copies not received.							
Attachment(s)							
1) Notice of References Cited (PTO-892)	4) Interview Summary						
2) Notice of Draftsperson's Patent Drawing Review (PTO-948) 3) Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08)	Paper No(s)/Mail Da 5) Notice of Informal Pa	te atent Application (PTO-152)					
Paper No(s)/Mail Date	6) Other:						
Patent and Trademark Office							

Claims 12 and 17 have been canceled. Claims 1-11 and 13-16 are pending. Claims 15 and 16 have been withdrawn.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4-6 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Grimm et al. (Grimm).

Grimm discloses a container comprising a first container portion (main vial 12) and a second container portion (locking member 26), an opening at the top of the second container portion having a width that is at least as wide as a largest interior width of the second container portion, the first and second container portions are spaced apart and connected by a connecting member 30, the first and second container portions and the connecting member are co-molded as an integral single piece.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1-11 and 13-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schiemann in view of Grady.

Application/Control Number: 09/928,682

Schiemann discloses a container comprising a first container portion (12) and a second container portion (13), the first and second container portions are spaced apart and connected by a connecting member 18, the first and second container portions and the connecting member are co-molded as an integral single piece. Schiemann discloses the invention except for the opening at the top of the second container portion having a width that is at least as wide as a largest interior width of the second container portion. Grady teaches a second container portion (scabbard 114) that has an opening at the top of the second container portion having a width that is at least as wide as a largest interior width of the second container portion. It would have been obvious to modify the second container portion of Schiemann to include a wider top opening to provide better access to a tool. It would have been obvious to add another container portion for tool storage as Schiemann has a tool engagement means and Grady teaches the second container portion for the storage of a tool (scabbard), the added container would become the second container and would be integrally molded as a single piece with the first container portion and connecting member of Schiemann.

Re the inwardly directed depressions of claims 2 and 3, Official notice is taken that inwardly directed depressions are well known in the bottle art. It would have been obvious to add inwardly directed depressions to reinforce the bottle.

Re the reinforcing ribs and creases of claims 5-7, Official notice is taken that ribs and creases are well known in the bottle art. It would have been obvious to add ribs and creases to reinforce the bottle.

Re the reinforced lip of claim 8, Official notice is taken that lips at the top wall are well known in the art. It would have been obvious to add a lip to reinforce the upper edge.

Art Unit: 3727

Re the connecting portion reinforcement of claim 11, Official notice is taken that connecting portion reinforcement is well known in the bottle art. It would have been obvious to add connecting portion reinforcement to reinforce the connecting portion to prevent inadvertent breakage and separation of the two container portions.

Applicant's arguments with respect to claims 1-11 and 13-14 have been considered but are most in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Castellano whose telephone number is 571-272-4535. The examiner can normally be reached on Tu-F 6:30-5.

Art Unit: 3727

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan J. Newhouse can be reached on 571-272-4544. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
